

GOWTHAM THANGAVEL

React JS Developer

SUMMARY

React.js Developer with expertise in JavaScript (ES6+), HTML5, CSS3, and Redux for building modern, responsive web applications. Proficient in front-end development tools like Webpack, Babel, and Git for version control. Skilled in integrating RESTful APIs, Fetch API, and building interactive UIs. Strong understanding of responsive web design, cross-browser compatibility, and performance optimization. Quick to adapt to new technologies and challenges. Seeking to contribute technical skills to a dynamic development team and deliver high quality software Solutions.

EDUCATION

Bachelor of Engineering in Computer Science
Anna University at AVS Engineering College, Salem (2020 - 2024)

Higher Secondary Education
Govt Model School, Konganapuram (2018-2019)

RELEVANT EXPERIENCE

Static Website for Fundraising to Charities | November 2023 - January 2024

- Used HTML5 for structure, CSS3 for responsive UI design, and integrated images to enhance user engagement.
- Focused on providing a seamless, mobile-friendly experience Android optimizing for accessibility

Responsive Portfolio Website | April 2024 - May 2024

- Utilized HTML5, CSS3, and JavaScript for development; emphasized UI/UX design, accessibility, and performance optimization.
- Integrated Git and GitHub for version control, ensuring smooth collaboration and code management.

Simple Responsive E-Commerce Website | July 2024 - August 2024

- Developed with HTML, CSS, JavaScript, and Bootstrap 5 to ensure mobile responsiveness and a clean user interface.
- Utilized Git and GitHub for project versioning and code management
